## EXPERIENCE

### QA Tester 2

#### Electronic Arts - EA Sports

June 2024 - Present   Hyderabad

##### Computer Games

- Currently working on software testing and texture creation for The Sims 4, using Maya and Blender as part of the asset and art-quality pipeline, including hands-on testing of an unreleased, confidential internal toolset to ensure stable workflows, high-fidelity visuals, and smooth integration into production.
- Drove end-to-end testing on The Sims 4, Plants vs Zombies, and multiple FC regional titles, helping deliver stable updates to a global player base.
- Known for identifying high-impact, edge-case bugs in live events, online systems, and monetisation flows before they reached players.
- Frequently trusted with complex features and last-minute build validations due to fast ramp-up, strong ownership, and reliable sign-off quality.
- Blended strong gameplay intuition with structured test design, turning vague issues into clear, developer-friendly defect reports and actionable insights.
- Proactively suggested UX, balance, and quality improvements based on playstyle analysis and player-centric thinking, going beyond traditional bug finding.

### Game Tester

#### Ubisoft India Studio

June 2022 - June 2024   Pune

##### Computer Games

- Contributed to the AAA game project "Skull and Bones" as a key team member.
- Recognised as the top bug reporter for the "Skull and Bones" project, collaborating closely with the Pune team.
- Executed testing on over 1,000 builds using Adhoc, Smoke, Functional, and Regression testing methodologies.
- Skilled in localisation and age rating compliance testing to ensure quality standards.
- Proficient in creating detailed test cases and maintaining comprehensive documentation.
- Experienced in testing across multiple platforms, including PC, Xbox One, and PlayStation 5.
- Familiar with industry-standard tools such as TestRails, Xray, JIRA, ATLAS, and Bloomberg terminal for bug tracking and test management.

### Junior 3D Artist - Intern

#### HMX Media

07/2020 12/2020   Pune

##### 3D Technology
